

POKER SOLUTIONS

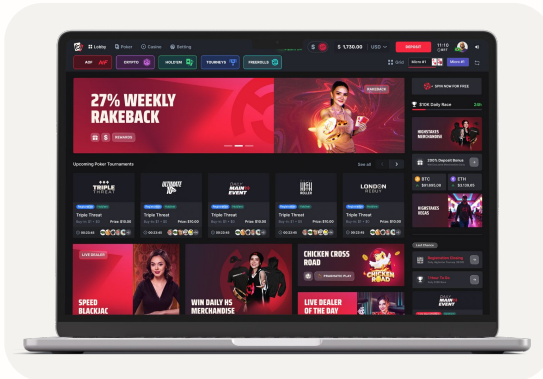

Poker software & gaming platform provider that turns poker into a profitable acquisition and **retention engine**.

Poker is coming into its own.

Not as a bolt on product, but as a strategic advantage operators can use to dominate poker in their market.

What you get

- Replace third party poker that leaks value through shared networks and vendor economics
- Launch in 15 plus languages with local currency configuration
- Hybrid liquidity model with ring fenced local games and shared flagship events when it benefits acquisition
- Own the desktop with branded Windows and Mac clients, plus HTML5 across devices
- Transparency first with verifiable hand histories supported by HighStakesDB and WeakTight

15 plus languages

Windows and Mac

HTML5

Hybrid liquidity

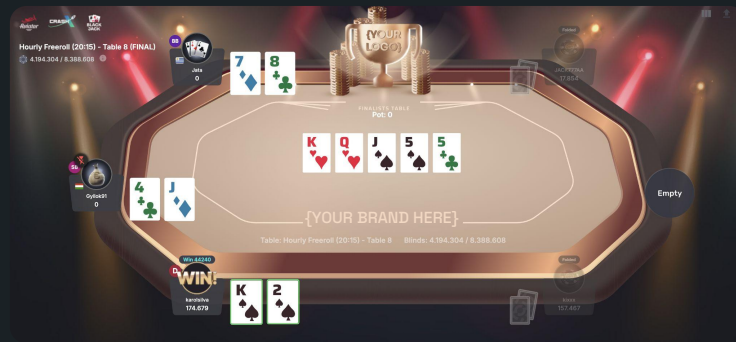

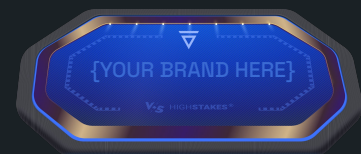

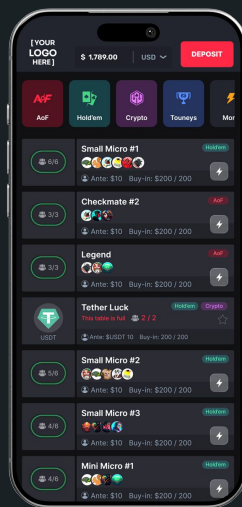

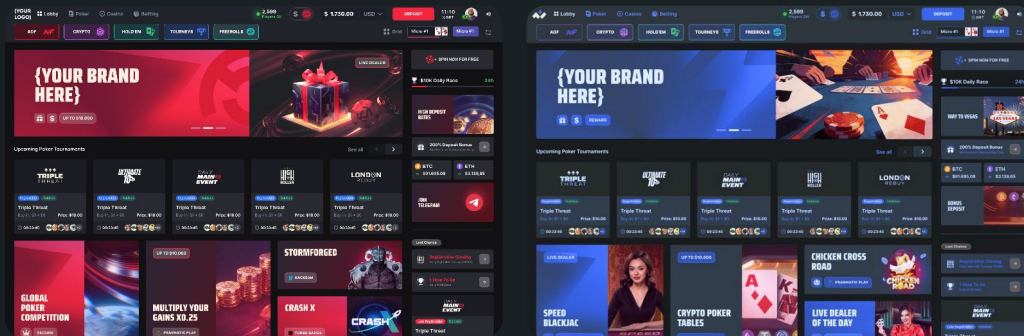

Transparency layer

Your poker. Your brand. Your market.

PokerSolutions is built for operators who want full control of the poker experience and the economics behind it.

- Custom lobby skins and tournament branding
- Table felts designed to match your brand
- Local language and local currency support
- Full tournament formats, VIP, rakeback, freerolls, clubs, private games
- Desktop, mobile, web, and Telegram distribution

Why operators add poker

Poker is one of the highest engagement gaming verticals. Run correctly, it becomes a low acquisition cost funnel and a retention flywheel.

PokerSolutions provides the solid, reliable software foundation needed to make your performance scalable and sustainable.

- Reactivates dormant users through freerolls and event led marketing
- Extends session length through tournaments and cash sessions
- Builds community and habit driven retention
- Cross sells into higher margin products such as casino, live, and sports
- Creates a defensible moat through loyalty and identity

x3 traffic

HighStakes has tripled traffic in Month 1 through freerolls alone, with measurable uplift across engagement metrics such as deposits and time on site.

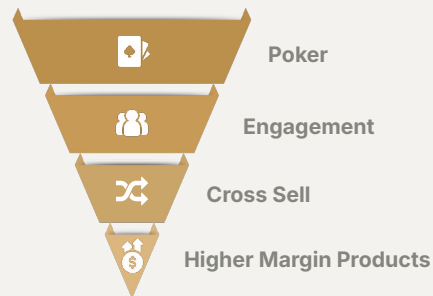

+10,000

Reactivated users in the last 30 days from freerolls alone. Reactivated user means no login in the prior 3 months, returning for the first time.

Time	Tournament	Entry	Stack	Rebuy	Add-On
00:00 45 min	TRIPLE THREAT	\$333	\$3 + \$0.3	5,000	Max 9 20,000
01:00 30 min	STROKE	\$1,000	\$10 + \$1	5,000	✓ 20,000
03:00 30 min	HS: INSOMNIA	\$200	\$1 + \$0.1	5,000	✓ 10,000
06:00 30 min	HS: DAWN	\$250	\$2 + \$0.2	5,000	✓ 10,000
09:00 40 min	MORNING HEAT	\$500	\$5 + \$0.5	5,000	✓ 20,000
13:00 45 min	HIGH NOON	\$750	\$5 + \$0.5	5,000	✓ 20,000
13:00 30 min	SAT TO DAILY MAIN (EARLY)	3 Tix + Cash	\$5 + \$0.3	3,000	✓ X
14:00 30 min	SAT TO SUNDAY MAIN	5 Tix + Cash	\$5 + \$0.5	3,000	✓ X
16:00 30 min	SAT TO SUNDAY HIGHROLLER	2 Tix + Cash	\$25 + \$2.5	3,000	✓ X

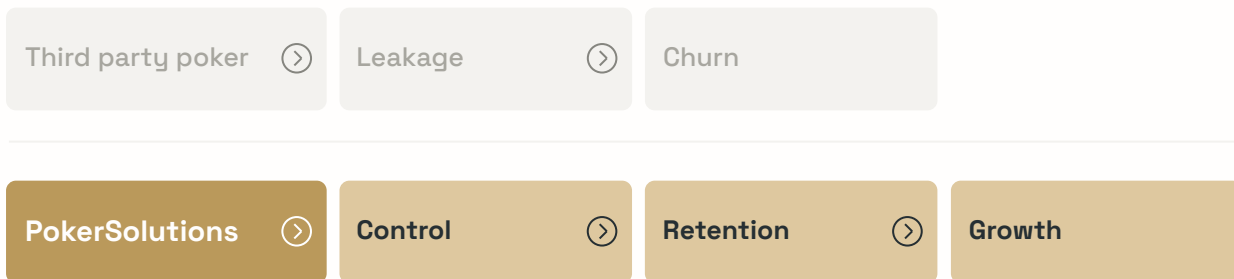

Retention Funnel

Why replace third party poker

Most poker B2B solutions are optimised for the vendor, not the operator. That is why poker often becomes a cost centre rather than a growth engine.

- Liquidity you do not control enables professional extraction
- No differentiation when competitors run the same poker product
- Economic leakage through setup fees, minimums, and rake share
- Poker treated as a bolt on rather than an acquisition funnel
- Limited transparency makes trust harder to build

PokerSolutions is designed to reverse this. Control the ecosystem, protect your player pool, and **turn poker into an advantage.**

Proven ecosystem support

Live Clients

 HIGHSTAKES™ • real money flagship skin

 GUTSHOT • historic poker brand with deep legacy

 Sharkroll • crypto community

Aggregation partners

 SLOTEGRATOR • leading online gaming aggregator

 IBET AGENCY • poker aggregation partner

Social and real money support line

PokerSolutions supports both social poker and real money poker from the same robust infrastructure.

Commercial positioning

Commercial terms are discussed case by case. PokerSolutions offers price match against existing providers, with terms designed to ensure poker becomes a net positive contributor rather than a leakage channel.
